## SUMMARY

Artificial Intelligence and Data Science undergraduate with experience in Python, SQL, data analysis, and machine learning projects. Interested in AI, data-driven problem solving, and building practical applications using modern technologies. Looking to strengthen technical skills through real-world projects and continuous learning.

## EDUCATION

### B.Tech Artificial Intelligence and Data Science

2023 – 2027

*Sri Shakthi Institute of Engineering and Technology* CGPA: 8.32/10

Coimbatore, Tamil Nadu

### HSC

2022 – 2023

Alvernia Matriculation Higher Secondary School: 83.5%

Coimbatore, Tamil Nadu

## PROJECTS

### Hospital ER Analytics Dashboard |*Power BI, DAX*

- Created an interactive dashboard on ER data to analyze patient flow, wait times, and department load
- Derived insights on peak hours and high-demand departments using DAX measures

### AI-Assisted Automated Data Analysis & Recommendations |*Python, Pandas, LLM APIs*

- Built an AI-assisted system to analyze structured CSV datasets and identify key patterns using Python
- Integrated a language model to generate simple, human-readable explanations and improvement suggestions

### Customer Churn Prediction |*Python, Scikit-learn*

- Built a churn prediction model using logistic regression with basic EDA and preprocessing
- Evaluated model performance using standard classification metrics

## EXPERIENCE

### Career Ladder - AWS Internship

April 2025 - May 2025

Gained hands-on exposure to AWS services including EC2, VPC, and RDS. Developed a foundational understanding of cloud computing concepts and infrastructure deployment.

### Atoms Systems Pvt Ltd - Data Science Internship

Jun 2025 – Jul 2025

Engaged as a student intern to develop skills in data analysis and exploratory data analysis (EDA). built a Customer Churn Prediction model from the ground up, covering data preprocessing, model development, and evaluation.

## TECHNICAL SKILLS

- Programming:** Python, SQL, Object-Oriented Programming (OOP)
- Data Analysis:** Pandas, NumPy, Exploratory Data Analysis (EDA)
- Machine Learning & AI:** Machine Learning, Model Evaluation
- Generative AI:** LLM APIs, Prompt Engineering, RAG Fundamentals, Model Context Protocol (MCP), AI Agents
- Frameworks & Tools:** LangChain, Streamlit, Git, Github, Power BI, Matplotlib
- Cloud:** AWS Fundamentals (EC2, VPC, RDS)

## CERTIFICATIONS

- TCS – Data Analytics Job Simulation
- Big Data – Infosys Springboard
- Python Bootcamp (Udemy)
